

# BIGREEN

**Potassium solution with vegetal steroids and microorganisms.**

## GUARANTEED RICHNESS

Potassium Oxide (K<sub>2</sub>O) soluble in water: 6% = **6,5% w/v**

DOES NOT CONTAIN CHLORINE

## GENERAL FEATURES

**BIGREEN** is a liquid fertilizer with **potassium**, vegetal steroids and microorganisms. Due to its special formulation, this product stimulates the bud formation and the growth of the aboveground parts and the root system of the plants. This process results in an early blooming and a production increase before the harvest.

**BIGREEN** favors the absorption of nutrients by the plant and it is recommended for rice and cereals, grass, citrus, stone fruits, vegetables, olive trees, ornamental and tropical plants, seeds, grapevines and nurseries.

Manufactured by:

**AGROQUIMICOS Y NUTRIENTES, S.L.**

## RECOMMENDATIONS FOR USE

### Dose

**Foliar application:** 3-6 applications with a dose of 1 – 4 cc/liter.

**Fertigation:** 3–6 applications during the cultivation stage every 15-20 days with a dose of 6 – 12 L/ha, using 2 L/ha every time.

**Transplant:** submerge the plant inside a dissolution at 10% v/v during 30 seconds before transplanting it.

**Seeds treatment:** wetting out properly in dissolution at 10% v/v of **BIGREEN**.

### Mode of use

**Foliar application:** apply it over the aboveground parts of the plants.

**Fertigation:** dilute it in irrigation water.

### Application season

This product can be used in all types of crops and its application is recommended throughout the vegetative cycle.

### Presentation

Drums of 5 and 20 liters.
