

# CITROLIFE

**Liquid corrector of zinc and manganese deficiencies.**

## GUARANTEED RICHNESS

Sulphuric anhydride (SO<sub>3</sub>) soluble in water: 9% w/w = **13% w/v**

Manganese (Mn): 6,5 % w/w = **9'5 % w/v**

Zinc (Zn): 16% w/w = **23'5 % w/v**

## GENERAL FEATURES

**CITROLIFE** is a liquid corrector of **Zinc** and **Manganese** deficiencies to be used via foliar application. The formulation type is "concentrated suspension" – FLOW type- in which a high concentration of micronutrients is acquired and the particle size is small enough for its complete assimilation by the vegetable or fruit.

Furthermore, **CITROLIFE** includes biodegradable dispersants and wetting agents to provide a quick and durable dispersion in water, even with a few agitations.

Manufactured by:

**AGROQUIMICOS Y NUTRIENTES, S.L.**

## RECOMMENDATIONS FOR USE

### Dose and instructions for use

The normal **dose is 500 cc/Hl.** It is diluted in water and sprayed over the above-ground parts of the plant with machines used in phytosanitary treatments.

### Application Season

**Citrus:** application recommended at the beginning of spring and summer sprouting, when new leaves reach 2/3 of their normal size.

**Horticultural crops and fruit-trees:** the product can be used throughout the vegetative cycle, being the sprouting periods the most recommended ones.

### Presentation

Bottles of 1 liter and drums of 5 and 20 liters.
