

CITROLIFE Mg

 **Correctors**

Liquid Magnesium, Zinc and Manganese deficiency corrector.

GUARANTEED RICHNESS

Magnesium oxide (MgO) soluble in water : 4% = 5,6% w/v

Manganese (Mn) soluble in water : 4% = 5,6% w/v Zinc (Zn) : 8% = 11,3% w/v

GENERAL FEATURES

CITROLIFE Mg is a liquid Zinc, Manganese, and Magnesium deficiency corrector used via foliar application. **CITROLIFE Mg** contains a high concentration of the aforementioned elements. Therefore, it is highly efficient when fighting Manganese, Zinc and Manganese deficiencies. The formulation type is “concentrated suspension” –FLOW type– where a high Magnesium and micronutrient concentration is achieved and a particle size is small enough for complete vegetal assimilation. Also, **CITROLIFE Mg** has added biodegradable dispersants and wetting agents for a quick and long lasting water dispersion, even with little shaking.

DOSE AND INSTRUCTIONS FOR USE

The foliar dose is from 300 to 500 cc./Ha.

APPLICATION SEASON

Citrus: application recommended at the beginning of spring and summer sprouting, when new leaves reach 2/3 of their normal size.

Horticultural crops and fruit-trees: the product can be used throughout the vegetative cycle, being the sprouting periods the most recommended ones.
