

COMPLECOR

Liquid corrector of Zinc and Manganese deficiencies.

GUARANTEED RICHNESS

Manganese (Mn) soluble in water: 3% w/w = **3,7% w/v**

Chelated Manganese (Mn): 1,5% w/w = **1,85% w/v**

Zinc (Zn) soluble in water: 4% w/w = **5% w/v**

Chelated Zinc (Zn): 2% w/w = **2,46% w/v**

GENERAL FEATURES

COMPLECOR is a liquid corrector of **Zinc and Manganese** deficiencies. Both elements are complexed by Heptagluconic acid, which eases their assimilation by the plant. Therefore, **COMPLECOR** corrects these deficiencies using a smaller dose than other products. It is recommended for **citrus, fruit-trees, horticultural crops, olive-tree and grapevines**.

Manufactured by:

AGROQUIMICOS Y NUTRIENTES, S.L.

RECOMMENDATIONS FOR USE

Dose and instructions for use

Foliar application: the regular dose is **250 to 500 cc/hl**. This product is used diluted in water and sprayed over the above-ground parts of the plant with machines used for phytosanitary treatments.

Fertigation: from **6 to 12L/ha** spread in 2-4 irrigations.

Season Application

Citrus: recommended during the beginning of spring and summer bud-breaks, when leaves have reached 2/3 of their normal size.

Horticultural crops, flowers and fruit-trees: the product can be applied **throughout the vegetative cycle**, being bud-breaks the most recommended.

Presentation

Bottle of 1 liter and drums of 5 and 20 liters.
