

# COMPLECOR-N

**Deficiency corrector containing a mixture of complexed Zinc and Manganese.**

## GUARANTEED RICHNESS

Total nitrogen (N): 5% w/w = 6,3% w/v  
Manganese (Mn) soluble in water: 3% w/w = 3,7% w/v  
Chelated manganese (Mn): 1,5% w/w = 1,85% w/v  
Zinc (Zn) soluble in water: 4% w/w = 5% w/v  
Chelated zinc (Zn): 2% w/w = 2,46% w/v

## GENERAL FEATURES

**COMPLECOR-N** is a liquid deficiency corrector containing **Zinc and Manganese** complexed by Heptagluconic acid. Complexed Zinc and Manganese are assimilated rapidly by the plant, achieving a solution to those deficiencies using small dose of **COMPLECOR-N**. This product is recommended for **citrus, fruit trees, horticultural crops, olive trees and grapevines**.

Manufactured by:

**AGROQUÍMICOS Y NUTRIENTES, S.L.**

## RECOMMENDATIONS FOR USE

### Dose and instructions for use

**Foliar application:** the regular dose is **250 to 500 cc/hl**. This product is diluted in water and sprayed over the aboveground parts of the plant with machines used for phytosanitary treatments.

**Fertigation:** from **6 to 12L/ha**, spread in 2-4 irrigations.

### Application season

**Citrus:** the recommended application is at the beginning of the spring and summer bud-breaks, when the leaves have reached 2/3 of their normal size.

**Horticultural crops, flowers and fruit-trees:** the product can be applied throughout the vegetative cycle, being bud-breaks the most recommended.

### Presentation

Bottles of 1 liter and drums of 5 and 20 liters.
