

GLUCO LIFE

Liquid corrector containing complexed microelements.

GUARANTEED RICHNESS

Boron (B) soluble in water: 0,2% = **0,25% w/v**

Complexed Copper (Cu): 0,1% = **0,12% w/v**

Complexed Iron (Fe): 2% = **2,5% w/v**

Complexed Manganese (Mn): 1,5% = **1,9% w/v**

Molybdenum (Mo) soluble in water: 0,05% = **0,06% w/v**

Complexed Zinc (Zn): 0,5% = **0,6% w/v**

Complexing agent: GLUCONIC ACID

GENERAL FEATURES

GLUCO-LIFE is a liquid mixture of **complexed microelements** for **foliar application or fertigation**. It **corrects microelement deficiencies quickly and efficiently**.

The manufacturing process of **GLUCO-LIFE** with its gluconic acid makes this product a **fertilizer of great assimilation**. The application of this product provides a balanced nutrition of great assimilation.

Given its great solubility and stability, **GLUCO-LIFE** is especially recommended for foliar application. **It does not contain Chlorine nor Sodium.**

Manufactured by:

AGROQUIMICOS Y NUTRIENTES, S.L.

RECOMMENDATIONS FOR USE

Dose

Foliar application: Dilute it in water at a dose of 200 to 400 c.c./hl.

Application season

It can be used throughout the vegetative cycle, whenever the deficiency of these microelements is first noticed. For citrus, use it during the spring and summer sprouting.

Presentation

Bottles de 1 liter and tubs of 5 and 20 liters.
