

HORTALIFE-PK

Complex liquid PK fertilizer for foliar feeding and fertigation.

GUARANTEED ANALYSIS

Phosphoric anhydride (P_2O_5) soluble in water: 18% w/w = **26% w/v**
Potassium oxide (K_2O) soluble in water: 24% w/w = **35% w/v**

GENERAL FEATURES

HORTALIFE PK is high density foliar fertilizer rich in phosphorus and potassium. Its application should be carried out after fructification, as this product favors the ripening, the quality, the color and an increase in size of the fruits.

HORTALIFE PK increases the amount of fertile flowers, the fruit setting, the quantity of sugars inside the fruits, the shortening of internodes, the colors of the flowers and the fruits and provides a good rooting effect. In addition, **HORTALIFE PK** balances the effects of nitrogen excess, enhancing the fruit's size.

DOSE AND INSTRUCTIONS FOR USE

Foliar application: dissolve using 150-300 cc/hl of water and spray it over the above-ground parts of the plant.

Fertigation: use a dose of 5 – 10 L/ha.

APPLICATION SEASON

Citrus trees and fruit trees in general, grapevines, olive trees, horticultural crops and flowers: application recommended for any stage of the vegetative cycle.
