GENERAL FEATURES

LIFE BROTACIÓN is a liquid deficiency corrector where Zinc and Manganese have been complexed using Heptagluconic acid. Also, **LIFE BROTACIÓN** contains a high concentration of free Amino Acids and proteic Organic Matter. **LIFE BROTACIÓN** is a biostimulant that favors the vegetal nutrition processes, it activates the enzymes that catalyze the energy in moments of peak necessity, stimulating the growth of the plant. **LIFE BROTACIÓN** effectively prevents and corrects Zinc and Manganese deficiencies. The Amino acids and Ureic Nitrogen improve substantially the assimilation and distribution within the plant of the aforementioned microelements.
