

MOJANTE LIFE

Liquid NP fertilizer solution.

GUARANTEED RICHNESS

Total nitrogen (N): 5%

Phosphorus pentoxide (P₂O₅) soluble in water: 4%

GENERAL FEATURES

MOJANTE LIFE is a fertilizer that contains **Nitrogen** and **Phosphorus**. The balanced composition of the nutrients in this fertilizer makes it appropriate for soils rich in Potassium and for crops that require an important amount of Phosphorus. Nitrogen and Phosphorus are perfectly **assimilated** by the plant.

Manufactured by:

AGROQUIMICOS Y NUTRIENTES, S.L.

RECOMMENDATIONS FOR USE

Dosage

The regular dose is **100 cc per 100 liters** of water (**0,1%**). The appropriate amount of the product must be used in order to wet correctly the above-ground parts of the plant.

Instructions for use

MOJANTE LIFE must be diluted in water following the indicated dosage and sprayed over the above-ground parts of the plant with machines used for phytosanitary treatments.

Presentation

Bottles of 1 liter and drums of 5 liters.
