

ORGANLIFE MIX

NutriLife

INSUMOS UNE

Organic matter with microelements.

GUARANTEED ANALYSIS

Boron (B) soluble in water : 0,2%
Copper (Cu) soluble in water : 0,15%
Complexed Copper (Cu) : 0,12%
Iron (Fe) soluble in water : 1%
Complexed Iron (Fe) : 0,8%
Complexing agent: LIGNOSULFONIC ACID

Manganese (Mn) soluble in water : 0,7%
Complexed Manganese (Mn) : 0,56%
Zinc (Zn) soluble in water : 0,35%
Complexed Zinc (Zn) : 0,28%
Organic matter : 31,5%

GENERAL FEATURES

ORGANLIFE MIX contains a high quantity of organic matter and a 30% of Fulvic acids that improve the physicochemical properties of the ground, favoring the microbial life and strengthening the development of the rooting system, providing a bigger ground exploration and an increased absorption surface, which improves the usage of the available nutrients.

Also, **ORGANLIFE MIX** corrects microelement deficiencies. These microelements are complexed using the Lignosulfonic Acid, which eases their assimilation.

DOSE AND INSTRUCTIONS FOR USE

Foliar application: dilute it in water, 200-300 cc/hl.

Fertigation: dilute it in water 50-100 cc/m³ and apply it to irrigation water. Regarding flood irrigation, **ORGANLIFE MIX** must be applied from 75 to 100 L/ha per year, spread in several applications.

APPLICATION SEASON

ORGANLIFE MIX was produced in order to use it in all type of crops, at any time of the vegetative cycle.
