

PROTEINAS LIFE

GUARANTEED RICHNESS

Hydrolyzed proteins: 30% w/v = 300 g/l

GENERAL FEATURES

PROTEINAS LIFE attracts adult Diptera (flies and mosquitoes) and serves as the base material to mix it with authorized insecticides for the preparation of insecticide baits in crops, such as:

Cherry-tree: Cherry fly.

Citrus: Ceratitis.

Deciduous trees: Ceratitis.

Sub-tropical fruit-trees: Ceratitis.

Olive-tree: Olive-tree fly.

Manufactured by:

AGROQUIMICOS Y NUTRIENTES, S.L.

RECOMMENDATIONS FOR USE

Dose and instructions for use

Ground applications must be **1,5% with half liter of mixture per tree or aerial application using 20 L/ha dosing it with 2 L/hl.**

Both treatments can be carried out following lines of 20-25 m (width) every 100m using thick drops. Insecticides mixed with **PROTEINAS LIFE** must be authorized for this specific application and timeframes and toxicology must be respected for both items.

Application season

This product must be applied as a treatment with insecticides to control the plagues.

Presentation

Bottles of 1L and drums of 5L and 20L.
